RICHMOND, VA., Feb. 11, 1882. How about the weather? is generally the first question, but I guesa the reader knows how it is without a word from Don't talk about it, is my earnest request. A Virginian's Death.

Capt. Charles Thurman, of this city, has received by telegraph, since his arrival home from New York, the sad intelligence of the death and burial of his brother, Mr. Powhatan Thurman, at his home in Lynchburg, Virginia, which event occurred a few duys since. Capt. Thurman, on his route to New York, passed through Lynchburg, and while there met his brother who was in excellent health, and to hear of his death was quite a shock. The deceased was 42 years of age, and during the late war between the States, was a gallant soldier in a Virginia regiment, serving as he-did from the time the battle of Manassas occurred until the surrender of Lee's army at Appomattox Court-house.

We clip the above from the Nashville Banner, of the 9th inst. Capt. Thurman, and his brother Edward, who are in commissioner of sales has also received Nashville, have our deepest sympathies.

(Pikeville is some distance from the railroad and the card, distance from the railroad and the card, distance from the railroad and the card, further understanding that any one, in- in the mail, and the telegram was also detained en route.) Mrs. Newman had reached the advanced age of 72 years and from the said Seventh District. But although she had been in feeble health enough of politics. Lient. Editor of Bristol News: 1 see in the Bristol News, of January 31,st a card signed by ten of the "officers and Teach-ers of Weaver Church Sabbath School," visitor on first entrance. Its life and and which Charges that "One of the gloss I imagine could not be excelled in lady Teachers reported in the town of its own climatic home, and Mr. Lewis Bristol, and elsewhere, that she thought Can it be true, or is it only a dream, says It outgrows the limits of the build- us a hellish mob, and was afraid she could not make her escape from the ing in spite of all the pruning he can do. Some curious matters signed to the card, except myself, and one other (who is, and has been gone den contains a large number of apricot I believe, and am fully satisfied, I am the Teacher intended to be designated. There was a meeting of the officers and Teachers of the School on the evening of the 22d December, as stated in the card, which I attended; and every thing, pears. But they are not sooner well as far as I know went off in harmony bution of the gifts, did I suspect that a trick had been played on me the previous morning I went to Bristol to visit my The grapes are numolested by these pubsister, and stayed four or five days, and He pets, and highly as the fruit is prized, while there told my sister, and perhaps other friends at her house, of the mortification I suffered from the treatment I had received; but I most emphatically deny the use of the language attributed to the lady Teacher in the card. Though on one occasion, in conversation three ing to the particular style of Governor weeks afterwards with one of the signers of the eard, I did speak of some expression or appearance as to be by comparison like Demons of Hell; But to no one sion has been practically a scaled book else at any time, and certainly I never feared personal violence. And to the signers to this eard I have used the strongest language ever used to any one has been neither on nor about it-as far touching this matter. And to the charge as any one is supposed to know. It has of falsehood, I have to say, that it is been a social waste-a circumscribed without foundation; that I have not been a social waste-a circumscribed sald any thing in this matter that I am not prepared to verity, and do not propose carrying this controversy any further after this in the prints; but thought this much called for by the misstatements and misrepresentations in the card before refered to

UNDER OATH.

A HAVE been smitted for twen'y years with an obstinate skin disease, called by some M. D.'s Paorlash, and others Leprosy, commencing on my scalp, and, in spite of all I could do, with the help of the most skillful docters, it slow ly but aurely extended until a year ago this winter it covered my entire person in form of dry scales. For the last three years I have been unable to do any labor, and sufering intensely all the time. Every morning there could be nearly a dustpanful of scales taken from the sheet on my bed some of them half as large as the envelope containing this letter. In the latter part of the winter my skin commenced cracking open. I fried everything, almost, that could be thought of without any relief. The 12th of June I started West, in hopes I could reach the tiot Springs. I reached Detroit, and was so low I thought I should go to the heapital, but finally got as far as Lansing, Mich., where I had a steter living. One Dr.—

treated me about two weeks, but did me no good. All thought I had but a fittle time to live. I estimately prayed to die. Cracked through the skin all over my back, across my ribs, arms, hands, ilmbs. feet badly swolen, the nalls came off, finger nalls dead and hard as hone. half dead, dry and lifeless as old straw. Oh, my God: how I did swifes!

"My slater, Mrs. E H Davis, had a small part of a box of Cuticura fie the house. She wouldn't give up; and 'We will try Cuticura.' Some was applied on one hand and arm. Eureka! there was rellef; stopped the terrible burning sensation from the word go. They immediately got the Cuticura Seap, the great skin cures. I commenced by taking one inhies pounding of Resolvent three times a day, after mosls; had a bath once a day, water short blood heat; used Cuticura Scap freely; apriled Cuticura morning and evening. Result, reformed to my home in just six weeks from the time I left, and my skin as amooth as this sheet of paper.
